SPORT STUDIES AT UQ

BACHELOR OF ARTS (SPORT STUDIES)

The world of Australian sports is in an age of exhilarating expansion and for those who eat, breathe and sleep sports; this booming industry is perfect for you.

Sport Studies is a major offered within a Bachelor of Arts that provides a broad overview of sport, exercise, and physical activity.

As a sport studies student you will focus to a large extent on developing an understanding of the sport and leisure industries from sociological, historical, economic and psychological perspectives.

You will be introduced to a wide range of courses encompassed by sport studies and explore exciting areas of study including:

- physical activity and health
- psychology in sport
- nutrition and exercise
- Olympic studies

You will also examine the social and economic importance of sport and physical activity in society and the role it plays in population health and society.

WHY STUDY SPORT AT UQ?

- Top Sports Facilities – As a UQ student you will have access to Olympic standard recreational and sporting facilities on campus to support your studies
- Study Options – You may combine a BA (Sport Studies) with another major or dual degree in areas such as: law, education, journalism, science, and business
- Flexibility – A wide choice of areas of study allows you to tailor your degree to suit future career aspirations
- Expert Teachers – Staff have expertise across key areas that inform the study of sport and ensure that you are kept informed of the latest developments
- Pathways – A BA (Sport Studies) can set you on path to a variety of careers directly after graduation or can provide a pathway into other sport-related undergraduate and postgraduate coursework or research programs
- UQ’s Sports History – UQ is heavily involved in sport and the Olympics; our alumni include Olympic medalists, professional sporting greats and sporting innovators
- Research Excellence – UQ has research strengths in the areas of physical activity and health education and promotion.
